

Milling

Few attachments can hold up to the daily abuse or meet the heavy-duty requirements of milling attachments. Designed for precise asphalt and concrete cuts, milling attachments are also valuable for utility crews and cable installation.

Cold Planer. An invaluable tool for road construction and maintenance crews. Asphalt and concrete are quickly milled due to the high torque generated by the planetary gearbox. Drum widths range from 12" to 36" (304 mm to 914 mm).

Rock Wheel. An efficient and precise attachment that makes road cuts as well as it make utility cuts. The rock wheel cuts widths of 2.5" to 4.5" and depths of up to 24"
