BUMPA II: Setting the New Standard for Heavy Duty Portable Conveyors.

Gorham ME, October 2, 2006 – National Attachments Incorporated is proud to introduce the new portable conveyor for fast, efficient loading of shingles, bricks, block, mortar, etc.

The Bumpa II provides proven reliability, simple design, and is virtually maintenance free. It is quick to erect and is up and running in under just four minutes. With continuous action, there is no waiting for platforms to be loaded and unloaded; which is a valuable time and money saver.

Lightweight at 167 lbs., the Bumpa II can be easily moved and repositioned in seconds. And, it can easily be maneuvered by two workers even on difficult sites. MOVE a pallet of concrete blocks two stories in 45 seconds.

For more information call 1-800-839-9981 or e-mail
