## **PRESS RELEASE**

FOR IMMEDIATE RELEASE

Contact: Eric Dupee  
Office: (800) 839-9981

**Gregory Grappler:** The most Extreme Service skid steer/backhoe attachment on the market, bringing rugged dependability, extreme versatility, strength, and finesse to any application.

With 37,000lbs of mechanical pressure at its tines; now manage timber not sticks, break, lift, and load concrete, scarify heavily compacted soil, bust through old road beds, rip through dense frost and move large boulders with ease. Tined upper and lower jaws handle cumbersome loads with ease, making any task a more efficient and effective job process.

The Grappler is a willing pack mule for distant jobs and its outstanding versatility, with unparalleled design and construction, make this attachment an essential in all scrap yard, forestry, railroad, construction and excavating, pipeline, and countless other material handling jobs.

For more information call 1-800-839-9981 or e-mail [edupee@nationalattachments.com](mailto:edupee@nationalattachments.com)
